Football

Gaming

Travelling

Summary

Passionate and detail-oriented web developer with strong skills in the MERN stack (MongoDB, Express.js, React, Node.js) and JavaScript. Proficient in building responsive and dynamic web applications using Tailwind CSS for modern and clean UI design. Eager to contribute to innovative projects and grow in a collaborative team environment as a fresher.

Training Experience

Almabetter

August 2024 - September 2024

Teaching Assistant Intern (Web Development)

Remote

- Tags:** *JavaScript, HTML, CSS, ReactJS, NodeJS, ExpressJS, MongoDB*
- Served as a Teaching Assistant, providing guidance and support to peers in project and subject-related queries.
- Resolved daily queries for 10 - 15 web development students, utilizing **JavaScript, HTML, CSS, ReactJS, NodeJS, MongoDB** and **ExpressJS** to provide comprehensive support

Projects

Amazon Clone

A Full Stack E-Commerce application
<https://amzone-frontend.vercel.app/>

- Tags:** *React JS, Tailwind CSS, MUI, Express.js, Node.js, MongoDB, JWT*
- Developed an Amazon clone using the MERN stack (**MongoDB, Express.js, React, Node.js**) with full-featured e-commerce functionality, including searching, product listings and shopping cart.
- Implemented responsive and modern UI/UX design using **Tailwind CSS and Material-UI (MUI)**, ensuring a seamless user experience across all devices.
- Integrated state management with **Redux Toolkit** and **Redux Persist**, along with secure **JWT authentication** for user login, registration, and session persistence.

Flashcard Generator

A flashcard generator application
<https://flashcardapp007.netlify.app/>

Tags: *React JS, Tailwind CSS, MUI*

- Built a dynamic Flashcard Generator using **ReactJS**, enabling users to create, edit, and manage customizable flashcards for learning and revision purposes.
- Styled the application with **Tailwind CSS** and **Material-UI (MUI)** for a clean and responsive interface, providing an intuitive user experience.
- Utilized **Redux Toolkit** for state management and **Formik** for form handling, ensuring efficient data flow and seamless user interactions throughout the app.

BookMyShow App

A movie ticket booking application
<https://appbookmyshow.netlify.app/>

- Tags:** *React JS, Tailwind CSS, MUI, Express.js, Node.js, MongoDB*
- Developed a movie booking application using the MERN stack (**MongoDB, Express.js, ReactJS, Node.js**), enabling users to choose and book movie tickets seamlessly.
- Implemented dynamic UI and efficient state management with **ReactJS** and **Redux Toolkit**, ensuring smooth and responsive user interactions across the application.
- Integrated backend services with **NodeJS** and **ExpressJS**, managing user data and bookings securely with **MongoDB**.
